Applications: In the global aquaculture industry, white spot syndrome is a common highly infectious shrimp virus disease which brings high mortality rate. The detection of virus is key in good field management. Innocreate Bioscience WSSV RP Rapid Test Kit provides shrimp farmers with a highly efficient and effective tool to assess risk of virus infection without additional instruments and professional training.

Advantage:

1. Rapid detection - test results available within 15 minutes .
2. Easy to use – no other consumables, equipment and professional training required.
3. High sensitivity – low copy number of virus can be detected.

Catalog #	Description	Qty
P11-01-01-020	WSSV Rapid Test Strip (small box)	20 rnx
P11-01-01-500	WSSV Rapid Test Strip (big box)	500 rnx
